One of the most grotesque of these is when one man stands upright on a springboard and tightly clasps another man's body round the waist, holding him head downward and putting his own head through the man's legs. When the upright man springs from the board he throws his legs into the air so that the two men, clasping each other tightly round the waist, turn a somersault, and when they reach the water the man who started upside down

The C. A. C. Axe Chops 5½ Cords In One Day

That's what Ed Moot did. He had to have a good axe to do it with, because he was chopping to win a good, big bet. Twenty different axe makers sent him axes (we didn't, tho', for we hadn't heard anything about the bet). But Ed knew his business. He wasn't taking any chances. He'd been chopping twenty years, and he knew there was just one axe that would do the trick, because he 's been using it to earn his bread and butter with.

So he sent for a

"I chose the C. A. C. because I was satisfied that I could do it quicker and easier than with any other. I believe any man can cut one-third more with the C. A. C. than with any other axe. I gladly recommend it to all my brother choppers." Ask your dealer for it. Pay him \$1.50 for the Single Bit, or \$2.00 for the Double Bit. Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the girest is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any are-breathing dregon. Garma can't be avoided. They are in the air we breathe, the water we drink,

The germ can only prosper when the condition of the system gives it free scope to establish it-self and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek,

a hollow eye, when the appetite is poor and the eleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digention and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed, "Golden Medical Discovery" contains no alcohol, whisky or babit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine or known conformation and with a record of 10 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.
